**NOTICE OF ADOPTION
WASTE DISCHARGE REQUIREMENTS ORDER R5-2021-0044
(NPDES PERMIT CA0079235)
FOR
SEWERAGE COMMISSION – OROVILLE REGION,
WASTEWATER TREATMENT PLANT
BUTTE COUNTY**

Enclosed are Waste Discharge Requirements Order R5-2021-0044 (NPDES Permit) for the Sewerage Commission – Oroville Region, adopted by the California Regional Water Quality Control Board, Central Valley Region, on 13 August 2021. The NPDES Permit becomes effective on 1 October 2021.

Until the enclosed NPDES Permit becomes effective you will need to comply with the effluent limitations and requirements contained in your previous NPDES permit, Order R5-2016-0024. For your August and September 2021 self-monitoring reports, you will need to demonstrate compliance with this Order through 30 September 2021, and compliance with new Order R5-2021-0044 beginning 1 October 2021.

The Central Valley Water Board is implementing a Paperless Office system to reduce our paper use, increase efficiency, and provide a more effective way for our staff, the public, and interested parties to view documents in electronic form. Therefore, you are required to submit all self-monitoring, technical, and progress reports required by the Orders via California Integrated Water Quality System (CIWQS) submittal. In general, if any monitoring data for a monitoring location can be submitted using a computable document format (CDF) file upload, then it should be submitted as a CDF file upload, such as characterization monitoring data. However, certain parameters that cannot be uploaded to the CIWQS data tables, such as Annual Operations Reports, should be uploaded as a Portable Document Format (PDF), Microsoft Word, or Microsoft Excel file attachment. Also, please upload a cover letter summarizing the content of the report to the submittal tab of the CIWQS module for each submittal.

KARL E. LONGLEY ScD, P.E., CHAIR | PATRICK PULUPA, ESQ., EXECUTIVE OFFICER

All other documents not required to be submitted via CIWQS shall be converted to a searchable PDF and submitted to centralvalleyredding@waterboards.ca.gov. Please include the following information in the body of the email:

- Attention: NPDES Compliance and Enforcement
- Facility: Sewerage Commission – Oroville Region Wastewater Treatment Plant
- CIWQS Place ID: 838967

Documents that are 50 MB or larger must be transferred to a CD, DVD, or flash drive and mailed to our office, attention “ECM Mailroom”.

Please note that a new table has been added to your permit at the end of the Monitoring and Reporting Program (Attachment E), Table E-11, entitled “Technical Reports.” This table includes all technical and progress reports required by your permit in one location, along with due dates and CIWQS report names. The items in this table have a corresponding placeholder in CIWQS identified by the CIWQS report name for you to upload each report by the due date.

Additionally, please note the new requirement in Attachment E, Section X.B.6.c, to attach all final laboratory reports from all contracted commercial laboratories with your Self-Monitoring Reports (SMRs).

If you have any questions regarding the enclosed Order, please contact Mike Nilsen of my staff at (530) 224-4853 or Michael.Nilsen@waterboards.ca.gov.
