

## Central Valley Regional Water Quality Control Board

17 September 2021

Mr. Allan Homme  
General Manager  
Chester Public Utility District  
P.O. Box 503  
Chester, CA 96020

**CERTIFIED MAIL**  
**7017 3380 0000 2868 8740**

**NOTICE OF ADOPTION**  
**Waste Discharge Requirements ORDER R5-2021-0022**  
**(NPDES PERMIT CA0077747)**  
**AND**  
**CEASE AND DESIST ORDER R5-2021-0038**  
**FOR**  
**CHESTER PUBLIC UTILITY DISTRICT**  
**CHESTER SEWAGE TREATMENT PLANT**  
**Plumas COUNTY**

Enclosed are Waste Discharge Requirements Order R5-2021-0022 (NPDES Permit) and Cease and Desist Order (CDO) R5-2021-0038, for the Chester Public Utility District, adopted by the California Regional Water Quality Control Board, Central Valley Region, on 22 April 2021, and 17 June 2021, respectively. The NPDES Permit became effective on 1 June 2021 and the CDO became effective on 29 June 2021.

Please note, now that the NPDES Permit and CDO have become effective, you will need to comply with the effluent limitations and requirements contained in your new NPDES permit, Order R5-2021-0022 and CDO Order R5 2021-0038.

The Central Valley Water Board is implementing a Paperless Office system to reduce our paper use, increase efficiency, and provide a more effective way for our staff, the public, and interested parties to view documents in electronic form. Therefore, you are required to submit all self-monitoring, technical, and progress reports required by the Orders via California Integrated Water Quality System (CIWQS) submittal. In general, if any monitoring data for a monitoring location can be submitted using a computable document format (CDF) file upload, then it should be submitted as a CDF file upload, such as characterization monitoring data. However, certain parameters that cannot be uploaded to the CIWQS data tables, such as Annual Operations Reports, should be uploaded as a Portable Document Format (PDF), Microsoft Word, or Microsoft Excel file attachment.

KARL E. LONGLEY ScD, P.E., CHAIR | PATRICK PULUPA, ESQ., EXECUTIVE OFFICER

Also, please upload a cover letter summarizing the content of the report to the submittal tab of the CIWQS module for each submittal.

All other documents not required to be submitted via CIWQS shall be converted to a searchable PDF and submitted to [centralvalleyredding@waterboards.ca.gov](mailto:centralvalleyredding@waterboards.ca.gov). Please include the following information in the body of the email:

- Attention: NPDES Compliance and Enforcement
- Facility: Chester Public Utility District- Chester Sewage Treatment Plant
- CIWQS Place ID: 214199

Documents that are 50 MB or larger must be transferred to a CD, DVD, or flash drive and mailed to our office, attention "ECM Mailroom".

Please note that a new table has been added to your permit at the end of the Monitoring and Reporting Program (Attachment E), Table E-11, entitled "Technical Reports." This table includes all technical and progress reports required by your permit in one location, along with due dates and CIWQS report names. The items in this table have a corresponding placeholder in CIWQS identified by the CIWQS report name for you to upload each report by the due date.

Additionally, please note the new requirement in Attachment E, Section X.B.6.c, to attach all final laboratory reports from all contracted commercial laboratories with your Self-Monitoring Reports (SMRs).

If you have any questions regarding the enclosed Order, please contact my staff member, Marisol Gonzalez at (530) 224-4204 or [Marisol.gonzalez@waterboards.ca.gov](mailto:Marisol.gonzalez@waterboards.ca.gov).
