Dear Mr. Livick and Mr. Koon:

AMENDMENT TO MONITORING AND REPORTING PROGRAM FOR ORDER NO. R3-2017-0050, NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) PERMIT NO. CA0047881: CITY OF MORRO BAY AND CAYUCOS SANITARY DISTRICT WASTEWATER TREATMENT FACILITY, SAN LUIS OBISPO COUNTY (WDID 3 400103001)

At its public meeting on December 7, 2017, the Central Coast Regional Water Quality Control Board (Water Board) adopted Order No. R3-2017-0050 for the subject facility, and the NPDES permit went into effect on March 1, 2018. On December 4, 2018, John Gunderlock with the City of Morro Bay contacted Water Board staff regarding some online database reporting issues and the City's requirement to submit semiannual reports.

Water Board staff reviewed the NPDES permit and identified an error in Table E-11 on page E-22 of the Monitoring and Reporting Program. The table should not have included semiannual reporting requirements. As noted in the Fact Sheet pages F-39-F-40, the City's monitoring requirements were reduced from semiannual to annual monitoring for chronic toxicity, Ocean Plan Table 1 metals and non-metals, nitrate, urea, orthophosphate, and dissolved silica, making semiannual reporting unnecessary.

This letter amends Table E-11 of the Monitoring and Reporting Program for Order No. R3-2017-0050 by removing the requirement for the City to submit semiannual reports. Removal of this requirement is a clarification of conflicting language in the order and is not a reduction in reporting requirements. The amendment is shown in underline-strikeout format below.

Table E-11. Monitoring Periods and Reporting Schedule

SMR Name	Permit Section for Monitoring and Sampling Data Included in Report	SMR Submittal Frequencies	SMR Due Date
NPDES Monitoring Report	MRP sections III (Influent), IV (Effluent) V (Whole Effluent Toxicity), and	Monthly	First day of second calendar month following period of sampling
NPDES Monitoring Report	MRP section IV (Effluent)	Semiannually	March 1st and September 1st following January

SMR Name	Permit Section for Monitoring and Sampling Data Included in Report	SMR Submittal Frequencies	SMR Due Date
			and July sampling, respectively)
NPDES Monitoring Report	MRP section IV (Effluent)	Annual	February 1 st following calendar year of sampling
NPDES Monitoring Report	MRP section VIII (Receiving Water)	Quarterly	First day of second calendar month following period of sampling
NPDES Monitoring Report	MRP section IX (Benthic)	Once per permit	February 1, 2019
Biosolids Technical Report	MRP section X (Biosolids)	Annually	February 1 st following calendar year of sampling
Ocean Outfall Inspection Technical Report	MRP section XI (Ocean Outfall and Diffuser Inspection)	Annually	February 1 st following calendar year of sampling
Summary Report	Attachment D, Standard Provision, VIII.D.8	Annually	April 1st following calendar year of sampling
Effluent Bacteria	Order section V.C.2.b Special Provisions	Quarterly	First day of second calendar month following period of sampling

We apologize for this error and have removed the semiannual reporting requirement in the online databases. If you have questions regarding the adopted permit or monitoring and reporting requirements, please contact Phil Hammer at (805) 549-3882.

Sincerely,

for John M. Robertson
Executive Officer
