
Central Coast Regional Water Quality Control Board

May 11, 2012

Mr. U.S. Wilson
Manager
ccsd@inreach.com
Cuyama Community Services District
Wastewater Treatment Plant
550 Highway 166
Santa Barbara, CA 93254

Dear Mr. Wilson:

ADMINISTRATIVE EXTENSION OF NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) PERMIT NO. CA0048089, ORDER NO. R3-2007-0020; CUYAMA COMMUNITY SERVICES DISTRICT (CCSD) WASTEWATER TREATMENT PLANT, SANTA BARBARA COUNTY, WDID 3 421003001

The Central Coast Regional Water Quality Control Board (Water Board) received your Report of Waste Discharge/Application and considers it to be complete. Pursuant to Title 40 of the Code of Federal Regulations, Part 122.6(d), this letter notifies you that the Water Board hereby administratively extends the expiration date of Order No. R3-2007-0020 until a reissued NPDES permit is adopted. You should also be aware that an adopted Order may also provide an additional 50 days after the date of adoption for USEPA's review and comment before the reissued permit becomes effective.

In addition, Water Board staff received your letter dated April 9, 2012, identifying that the CCSD has decided to change its discharge location and discharge treated wastewater effluent to land rather than to Salisbury Creek. Water Board staff requests the CCSD submit a revised application and any supporting information describing the proposed project. Based on the timing of your proposed project, Water Board staff will consider reissuing either your NPDES permit or issuing new waste discharge requirements for the land discharge.

If you have questions, please contact **Peter von Langen** at (805) 549-3688 or pvonlangen@waterboards.ca.gov, or Sheila Soderberg at (805) 549-3592.

Sincerely,

for Roger W. Briggs
Executive Officer
