ADMINISTRATIVE CONTINUATION OF ORDER R5-2006-0092 (NPDES PERMIT NO. CA0081485), CUTLER-OROSI JOINT POWERS WASTEWATER AUTHORITY, CUTLER-OROSI WASTEWATER TREATMENT FACILITY, TULARE COUNTY

This letter authorizes the administrative continuation of Waste Discharge Requirements Order R5-2006-0092, National Pollutant Discharge Elimination System Permit No. CA0081485, as issued to the Cutler-Orosi Joint Powers Wastewater Authority (JPWA). The permit is for the discharge of disinfected secondary treated wastewater to Sand Creek, a water of the United States, and undisinfected secondary treated wastewater to disposal ponds and a use area. On 25 March 2011, the JPWA submitted an application to renew the permit, which expires on 21 September 2011.

Pursuant to Title 40, Code of Federal Regulations, Section 122.6 and Title 23, California Code of Regulations, Section 2235.4, Order R5-2006-0092 is hereby continued. The permit will remain in force, fully effective and enforceable. This continuation is conditional upon payment of appropriate fees and observance of the terms and conditions of Order R5-2006-0092. This continuation is based upon the fact that the JPWA submitted a timely application for renewal of the permit. The Central Valley Regional Water Quality Control Board is in the process of drafting tentative waste discharge requirements for the subject facility. The JPWA will have an opportunity to comment on the tentative waste discharge requirements prior to adoption.

If you have any questions regarding this matter, please contact Aide Ortiz at (559) 445-6083 or at aortiz@waterboards.ca.gov.
