

Central Valley Regional Water Quality Control Board

3 December 2012

Mark Rowney, General Manager
Mariposa Public Utility District
P.O. Box 494
Mariposa, CA 95338

ADMINISTRATIVE CONTINUATION OF ORDER R5-2007-0171 (NPDES PERMIT NO. CA0079430), MARIPOSA PUBLIC UTILITY DISTRICT, WASTEWATER TREATMENT FACILITY, MARIPOSA COUNTY

This letter authorizes the administrative continuation of Waste Discharge Requirements Order R5-2007-0171, National Pollutant Discharge Elimination System Permit No. CA0079430, as issued to the Mariposa Public Utility District (MPUD). The permit expires on 4 December 2012 and is for the discharge of treated and disinfected municipal wastewater to Mariposa Creek, a water of the United States. On 29 June 2012, MPUD submitted an application to renew the permit. We reviewed the application and found it to be complete. However, we may request clarifying information at a later date.

Pursuant to section 122.6, Title 40, Code of Federal Regulations and section 2235.4, Title 23, California Code of Regulations, Order R5-2007-0171 is hereby continued. The permit will remain in force, fully effective, and enforceable. This continuation is conditional upon payment of appropriate fees and observance of the terms and conditions of Order R5-2007-0171. This continuation is based upon MPUD's commitment to operate the facility in compliance with the terms and conditions of Order R5-2007-0171. The Central Valley Regional Water Quality Control Board is in the process of drafting tentative waste discharge requirements for the subject facility. MPUD will have an opportunity to comment on the tentative waste discharge requirements prior to adoption.

If you have any questions regarding this matter, please contact Aide Ortiz at (559) 445-6083 or at aortiz@waterboards.ca.gov.
