

Los Angeles Regional Water Quality Control Board

August 29, 2023

Lysa Gaboudian
Supervising Engineer
Santa Clarita Valley Sanitation District
1955 Workman Mill Road
Whittier, CA 90607

TEMPORARY RELOCATION OF FURTHEST DOWNSTREAM RECEIVING WATER STATION – SANTA CLARITA VALLEY SANITATION DISTRICT (SCVSD), VALENCIA WATER RECLAMATION PLANT (VALENCIA WRP) (ORDER NO. R4-2022-0174, NPDES PERMIT NO. CA0054216, CI-4993)

Dear Lysa Gaboudian:

The Los Angeles Regional Water Quality Control Board (Los Angeles Water Board) received a letter from SCVSD on August 1, 2023, requesting approval to temporarily conduct receiving water monitoring downstream of the outfall at an alternate location, due to accessibility issues with station RSW-003D (R-E). The letter indicates that since a winter storm washed out the road used to access station RSW-003D (R-E), SCVSD staff have been unable to collect samples at that location since March 2023. The California Department of Fish and Wildlife also prohibits any construction that may affect the river, so the road cannot be repaired at this time, and SCVSD could not find an alternative route to the monitoring location.

Receiving water station RSW-002D (R-D) is located 300 feet downstream of the Valencia WRP Discharge Point 001 and is the immediate downstream location where receiving water is monitored to determine the impact the discharge has on the water quality in the Santa Clara River. Since the immediate downstream station will continue to be monitored and the furthest downstream receiving water sampling station RSW-003D is inaccessible, your request for the temporary relocation of receiving water sampling station RSW-003D is approved. Receiving water monitoring required in NPDES Order No. R4-2022-0174 and scheduled for collection at RSW-003D (Latitude 34.4186°N, Longitude -118.6357°W) shall be collected approximately 1.2 miles further downstream, at RSW-003D (Latitude 34.415833°N, Longitude -118.654167°W), until the access road is repaired. All other aspects of the Monitoring and Reporting Program in Order R4-2022-0174 remain the same.

NORMA CAMACHO, CHAIR | SUSANA ARREDONDO, EXECUTIVE OFFICER
