Casey Wichert
Wastewater Operations Manager
City of Brentwood Wastewater Treatment
2251 Elkins Way
Brentwood, CA 94513-7344

**NOTICE OF ADOPTION
WASTE DISCHARGE REQUIREMENTS ORDER R5-2019-0029
AND TIME SCHEDULE ORDER R5-2019-0030
NPDES PERMIT NO. CA0082660**

FOR

**CITY OF BRENTWOOD
WASTEWATER TREATMENT PLANT
CONTRA COSTA COUNTY**

Enclosed is Waste Discharge Requirements Order R5-2019-0029 (NPDES Permit) and Time Schedule Order (TSO) R5-2019-0030 for the City of Brentwood Wastewater Treatment Plant, adopted by the California Regional Water Quality Control Board, Central Valley Region, on 5 April 2019. The NPDES Permit and TSO become effective on **1 June 2019**.

Until the enclosed NPDES Permit and TSO become effective you will need to comply with the effluent limitations and requirements contained in your previous permit, Order R5-2013-0106-01.

The Central Valley Water Board is implementing a Paperless Office system to reduce our paper use, increase efficiency, and provide a more effective way for our staff, the public, and interested parties to view documents in electronic form. Therefore, City of Brentwood is required to submit all self-monitoring, technical, and progress reports required by the Order via California Integrated Water Quality System (CIWQS) submittal. In general, if any monitoring data for a monitoring location can be submitted using a computable document format (CDF) file upload, then it should be submitted as a CDF file upload, such as characterization monitoring data. Also, please upload a cover letter summarizing the content of the report to the submittal tab of the CIWQS module for each submittal.

All other documents not required to be submitted via CIWQS shall be converted to a searchable PDF and submitted by email to centralvalleysacramento@waterboards.ca.gov. Please include the following information in the body of the email: Attention: NPDES Compliance and Enforcement; City of Brentwood Wastewater Treatment Plant, CIWQS place ID 210322. Documents that are 50 MB or larger must be transferred to a CD, DVD, or flash drive and mailed to our office, attention "ECM Mailroom".

Please note that a new table has been added to your permit at the end of the Monitoring and Reporting Program (Attachment E), Table E-10, entitled "Technical Reports." This table includes all technical and progress reports required by your permit in one location, along with due dates and CIWQS report names. The items in this table have a corresponding placeholder in CIWQS identified by the CIWQS report name for you to upload each report by the due date.

Now that your Orders have been adopted, the Central Valley Water Board's Compliance and Enforcement section will take over management of your case. Mohammad Farhad is your point of contact for any questions about the enclosed Order. If you find it necessary to make a change to your permitted operations you will be directed to the appropriate Permitting staff. You may contact Mohammad Farhad at (916) 464-1181 or Mohammad.Farhad@waterboards.ca.gov.

Kari Holmes, P.E.
Senior Engineer
