DEER MEADOW LEACHFIELD SERVICE, TULARE COUNTY

In 1982, the Board adopted Waste Discharge Requirements Order No. 82-098, for discharge of wastewater from your facility. The requirements need to be updated to reflect current policies of the Board.

The State Water Resources Control Board recently adopted General Waste Discharge Requirements, Water Quality Order No. 97-10-DWQ for use throughout California to regulate small domestic systems such as yours. A copy of the General Order is enclosed. Subject to your agreement, your discharge can be effectively regulated under the General Order. You can indicate your acceptance of this approach by completing and mailing the enclosed Notice of Acceptance form. Once we receive your acceptance, we will inform the Board, request that Order No. 82-098 be rescinded, and have the General Order govern your discharge. Also, to update our files, please complete the enclosed Form 200.

By **26 May 1998**, if you agree to the terms in the enclosed documents, please submit the Notice of Acceptance, Form 200, and any comments you may have concerning this matter. If you have any questions, call Ms. Sumi Hoode at (209) 445-5576.
