**NOTICE OF ADOPTION
WASTE DISCHARGE REQUIREMENTS ORDER R5-2019-0052
NPDES PERMIT NO. CA0081744
FOR
GRIZZLY LAKE COMMUNITY SERVICES DISTRICT
DELLEKER WASTEWATER TREATMENT PLANT
PLUMAS COUNTY**

Enclosed are Waste Discharge Requirements Order R5-2019-0052 (NPDES Permit) for the Grizzly Lake Community Services District's Delleker Wastewater Treatment Plant, adopted by the California Regional Water Quality Control Board, Central Valley Region, on 7 June 2019. The NPDES Permit will become effective on 1 August 2019.

Until the enclosed NPDES Permit becomes effective you will need to comply with the effluent limitations and requirements contained in your previous permit, Order R5-2012-0046. For your June and July 2019 self-monitoring reports, you will need to demonstrate compliance with previous Order R5-2012-0046 through 31 July 2019, and compliance with new Order R5-2019-0027 beginning 1 August 2019.

The Central Valley Water Board is implementing a Paperless Office system to reduce our paper use, increase efficiency, and provide a more effective way for our staff, the public, and interested parties to view documents in electronic form. Therefore, the Grizzly Lake Community Services District is required to submit all self-monitoring, technical, and progress reports required by the Orders via California Integrated Water Quality System (CIWQS) submittal. In general, if any monitoring data for a monitoring location can be submitted using a computable document format (CDF) file upload, then it should be submitted as a CDF file upload, such as characterization monitoring data. However, certain parameters that cannot be uploaded to the CIWQS data tables, such as Annual Operations Reports, should be uploaded as a Portable Document Format (PDF), Microsoft Word, or Microsoft Excel file attachment. Also, please upload a cover letter summarizing the content of the report to the submittal tab of the CIWQS module for each submittal.

All other documents not required to be submitted via CIWQS shall be converted to a searchable PDF and submitted by email to centralvalleyredding@waterboards.ca.gov. Please include the

KARL E. LONGLEY ScD, P.E., CHAIR | PATRICK PULUPA, ESQ., EXECUTIVE OFFICER

364 Knollcrest Drive, Suite 205, Redding, CA 96002 | www.waterboards.ca.gov/centralvalley

following information in the body of the email: Attention: NPDES Compliance and Enforcement; Delleker Wastewater Treatment Plant; CIWQS place ID 219530. Documents that are 50 MB or larger must be transferred to a CD, DVD, or flash drive and mailed to our office, attention "ECM Mailroom".

Please note that a new table has been added to your permit at the end of the Monitoring and Reporting Program (Attachment E), Table E-13, entitled "Technical Reports." This table includes all technical and progress reports required by your permit in one location, along with due dates and CIWQS report names. The items in this table have a corresponding placeholder in CIWQS identified by the CIWQS report name for you to upload each report by the due date.

If you have any questions regarding the enclosed Order, please contact Mike Nilsen of my staff at (530) 224-4853 or Michael.Nilsen@waterboards.ca.gov.

Jeremy Pagan, P.E.
