Approval of the City of Victorville's Industrial Wastewater Pretreatment Program, Victorville, San Bernardino County

This letter approves the City of Victorville's (City) industrial wastewater pretreatment program. The Lahontan Regional Water Quality Control Board (Water Board) issued Board Order No. R6V-2014-0002 (Board Order), establishing waste discharge requirements for the Industrial Wastewater Treatment Plant located at the Southern California Logistics Airport. Board Order Provisions, sections II.F.1 and 2, required the City to submit an industrial wastewater pretreatment program to the Water Board for approval or submit an executed interjurisdictional agreement granting the Victor Valley Wastewater Reclamation Authority the authority to implement the industrial wastewater pretreatment program in the City's service area. That order also required the City to implement this program.

The City submitted its own industrial wastewater pretreatment program consisting of the items listed on Enclosure 1 and has implemented that program to this date. Water Board staff issued a Pretreatment Compliance Audit report dated November 25, 2020. The audit evaluated adequacy of the City's program, and Water Board staff concluded it satisfies both the Board Order and Code of Federal Regulations, Title 40, part 403 requirements. Therefore, I approve the City's industrial wastewater pretreatment program.

We look forward to working with you in a manner that protects water quality and the environment. If you have any questions regarding this letter, please contact me at (530) 542-5453 (mike.plaziak@waterboards.ca.gov) or John Morales, P.E. at (760) 241-7366 (john.morales@waterboards.ca.gov) or Jehiel Cass, P.E., Senior Engineer at (760) 241-2434 (jehiel.cass@waterboards.ca.gov).
