GENERAL INFORMATION FORM FOR
WASTE DISCHARGE REQUIREMENTS OR NPDES PERMIT**

I. FACILITY INFORMATION
A. Facility:

Name: HARTLAND CHRISTIAN CAMP			
Address: 57611 ESHOM VALLEY DR.			
City: BADGER	County: TULARE	State: CA	Zip Code: 93603
Contact Person: ROBERT NUNZIATO		Telephone Number: 559.337.2349	

B. Facility Owner:

Name: HARTLAND CHRISTIAN CAMP			Owner Type (Check One) 1. ☐ Individual 2. ☒ Corporation	
Address: 57611 ESHOM VALLEY DR.			3. ☐ Governmental Agency 4. ☐ Partnership Agency	
City: BADGER	State: CA	Zip Code: 93603	5. ☐ Other: _____	
Contact Person: ROBERT NUNZIATO		Telephone Number: 559.337.2349	Federal Tax ID: 94-1639159	

C. Facility Operator (The agency or business, not the person):

Name: HARTLAND CHRISTIAN CAMP			Operator Type (Check One) 1. ☐ Individual 2. ☒ Corporation	
Address: 57611 ESHOM VALLEY DR.			3. ☐ Governmental Agency 4. ☐ Partnership Agency	
City: BADGER	State: CA	Zip Code: 93603	5. ☐ Other: _____	
Contact Person: ROBERT NUNZIATO		Telephone Number: 559.337.2349 EX. 106 OR 559.259.0545		

D. Owner of the Land:

Name: HARTLAND CHRISTIAN CAMP			Owner Type (Check One) 1. ☐ Individual 2. ☒ Corporation	
Address: 57611 ESHOM VALLEY DR.			3. ☐ Governmental Agency 4. ☐ Partnership Agency	
City: BADGER	State: CA	Zip Code: 93603	5. ☐ Other: _____	
Contact Person: ROBERT NUNZIATO		Telephone Number: 559.337.2349 EX. 106 OR 559.259.0545		

E. Address Where Legal Notice May Be Served:

Address: 57611 ESHOM VALLEY DR.		
City: BADGER	State: CA	Zip Code: 93603
Contact Person: ROBERT NUNZIATO		Telephone Number: 559.337.2349

F. Billing Address:

Address: 57611 ESHOM VALLEY DR.		
City: BADGER	State: CA	Zip Code: 93603
Contact Person: ROBERT NUNZIATO		Telephone Number: 559.337.2349

**APPLICATION/REPORT OF WASTE DISCHARGE
GENERAL INFORMATION FORM FOR
WASTE DISCHARGE REQUIREMENTS OR NPDES PERMIT**

II. TYPE OF DISCHARGE

Check Type of Discharge(s) Described in this Application (A or B):

☒ A. WASTE DISCHARGE TO LAND

☐ B. WASTE DISCHARGE TO SURFACE WATER

Check all that apply:

☒ Domestic/Municipal Wastewater Treatment and Disposal

☐ Cooling Water

☐ Mining

☐ Waste Pile

☐ Wastewater Reclamation

☐ Other, please describe: _____

☐ Animal Waste Solids

☐ Land Treatment Unit

☐ Dredge Material Disposal

☐ Surface Impoundment

☐ Industrial Process Wastewater

☐ Animal or Aquacultural Wastewater

☐ Biosolids/Residual

☐ Hazardous Waste (see instructions)

☐ Landfill (see instructions)

☐ Storm Water

III. LOCATION OF THE FACILITY

Describe the physical location of the facility.

1. Assessor's Parcel Number(s)

Facility: 009-005-005

Discharge Point: 009-006-016

2. Latitude

Facility: N 36°39.0642'

Discharge Point: N36°38.7926'

3. Longitude

Facility: W 118°57.4158'

Discharge Point: W 118°57.2638'

IV. REASON FOR FILING

☐ New Discharge or Facility

☐ Changes in Ownership/Operator (see instructions)

☐ Change in Design or Operation

☒ Waste Discharge Requirements Update or NPDES Permit Reissuance

☐ Change in Quantity/Type of Discharge

☐ Other: _____

V. CALIFORNIA ENVIRONMENTAL QUALITY ACT (CEQA)

Name of Lead Agency: _____

Has a public agency determined that the proposed project is exempt from CEQA?

☐ Yes

☐ No

If Yes, state the basis for the exemption and the name of the agency supplying the exemption on the line below.

Basis for Exemption/Agency: _____

Has a "Notice of Determination" been filed under CEQA?

☐ Yes

☐ No

If Yes, enclose a copy of the CEQA document, Environmental Impact Report, or Negative Declaration. If no, identify the expected type of CEQA document and expected date of completion.

Expected CEQA Documents:

☐ EIR

☐ Negative Declaration

Expected CEQA Completion Date: _____

**APPLICATION/REPORT OF WASTE DISCHARGE
GENERAL INFORMATION FORM FOR
WASTE DISCHARGE REQUIREMENTS OR NPDES PERMIT**

VI. OTHER REQUIRED INFORMATION

Please provide a COMPLETE characterization of your discharge. A complete characterization includes, but is not limited to, design and actual flows, a list of constituents and the discharge concentration of each constituent, a list of other appropriate waste discharge characteristics, a description and schematic drawing of all treatment processes, a description of any Best Management Practices (BMPs) used, and a description of disposal methods.

Also include a site map showing the location of the facility and, if you are submitting this application for an NPDES permit, identify the surface water to which you propose to discharge. Please try to limit your maps to a scale of 1:24,000 (7.5' USGS Quadrangle) or a street map, if more appropriate.

VII. OTHER

Attach additional sheets to explain any responses which need clarification. List attachments with titles and dates below:

You will be notified by a representative of the RWQCB within 30 days of receipt of your application. The notice will state if your application is complete or if there is additional information you must submit to complete your Application/Report of Waste Discharge, pursuant to Division 7, Section 13260 of the California Water Code.

VIII. CERTIFICATION

"I certify under penalty of law that this document, including all attachments and supplemental information, were prepared under my direction and supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment."

Characterization of Discharge

Hartland Christian Camp staff and campers, during peak summer weeks, generate between 8,000 and 11,000 gallons per day of domestic wastewater which comes exclusively from bathroom and kitchen use. The kitchen has a grease trap that is serviced by ETS annually, or sooner if needed. The fifteen septic tanks that are located close to each source separate and trap the solids. The septic tanks are inspected by the Hartland staff based on a schedule, and the solids are pumped as need by Sierra Sanitation. The "grey" water is pumped to either an aeration basin and then on to a percolation/evaporation pond or to a leach field for treatment / disposal.

Description of Current Facility at Hartland Christian Camp

Hartland Christian Camp which is the DBA for Hartland Christian Association owns and operates a domestic sewage treatment system under Waste Discharge Requirement Order No. 94-021. The system consists of three lift stations, fifteen septic tanks (which are serviced by Sierra Sanitation), two leach fields, two lined aeration basins, and two evaporation/percolation ponds. During the height of the summer season, daily average flows peaked in the 8,000 – 11,000 GPD range. The effluent from fourteen of the fifteen septic tanks flows to the main collection well/lift station, which contains three pumps. From this main lift station, the septic tank effluent is pumped to either a second lift station; or in the event of power outage or necessity, to a leach field north of the main lift station. The second lift station is located south of the main camp. Effluent from the fifteenth septic tanks at the shop and wastewater pumped from the main lift station drain to this second lift station. From the second lift station, effluent is pumped to the south, either to the first (northern) aeration basin or to a third lift station located further south. From the third lift station, effluent received from the second lift station is pumped to either a second aeration basin (southern) or to the southernmost leachfield. Wastewater from the aeration basins flows by gravity to evaporation/percolation ponds adjacent to the aeration basins.
