NOTICE OF AMENDED MONITORING & REPORTING PROGRAM (MRP), WATER QUALITY ORDER NO. 2014-0153-DWQ-R5194-01, WHITEHAWK RANCH MUTUAL WATER COMPANY, WASTEWATER TREATMENT AND DISPOSAL SYSTEM, CLIO, PLUMAS COUNTY

Whitehawk Ranch Mutual Water Company (Whitehawk Ranch MWC) is located in Sections 31, 32, 5, & 6 T22N, & T21N R13E, MDB&M with surface water drainage to Sulphur Creek, a tributary to the Middle Fork Feather River. The community system consists of gravity flow lines, lift stations, activated sludge treatment plant, leachfields and land application area (seasonal spray irrigation). There are no septic tanks associated with this system.

Whitehawk Ranch MWC, wastewater treatment and disposal system (Facility) is currently enrolled under General Order 2014-0153-DWQ-R5194 per Notice of Applicability sent 9 December 2015. Compliance under the General Order will go into effect after the 19 February 2016 meeting of the Central Valley Water Board.

Based on communication with the Facility's operator since 9 December 2015, it has been determined that the original MRP did not accurately represent the facility's wastewater treatment and disposal system. After consideration of your treatment system's infrastructure, design and site conditions, the enclosed amended MRP will replace the original MRP included with the 9 December 2015 NOA for the facility.

If you have any questions please contact Ron S. Falkowski at (530) 224-3227, rsfalkowski@waterboards.ca.gov, or the footer address.
