**NOTICE OF ADOPTION
OF
ORDER R5-2018-0024
WASTE DISCHARGE REQUIREMENTS
FOR
CITY OF NEWMAN
WASTEWATER TREATMENT FACILITY
STANISLAUS COUNTY**

Waste Discharge Requirements (WDRs) Order R5-2018-0024 for the City of Newman Wastewater Treatment Facility was adopted by the Central Valley Regional Water Quality Control Board on 6 April 2018.

Although the WDRs allow wastewater discharge to land, the discharge is a privilege not a right and may be revoked at any time. A copy of the Order must be maintained at the facility and must be accessible to anyone operating the wastewater system. Please note that the Provisions section of the WDRs requires submittal of certain technical reports by the dates provided in the Order. The required submittals include the items listed in the following table.

Required Reports	Due Date
<i>Groundwater Monitoring Well Installation Workplan</i>	1 February 2019
<i>Groundwater Limitations Compliance Assessment Plan</i>	1 February 2019
<i>Groundwater Monitoring Well Installation Report</i>	3 September 2019
<i>Arsenic and Manganese Groundwater Impact Evaluation Report</i>	1 February 2021
<i>Wastewater System Improvements & Expansion Report</i>	At least 60 days prior to a planned flow limit increase

In addition to technical reports required by the WDRs, the WDRs include a Monitoring and Reporting Program (MRP), which specifies monitoring and reporting requirements for you to implement. Please review the MRP closely so that you may establish appropriate sampling

schedules and reporting protocols. The required monitoring report submittal dates are in the table below.

Required Monitoring Report	Due Date
<i>Quarterly Monitoring Reports</i>	1st day of second month following the sampling period (the January-March quarterly report is due by 1 May)
<i>Annual Monitoring Reports</i>	1 February of each year

As a reminder, the monitoring reports must be submitted on time and complete. Monitoring reports must include all the items described in the Reporting Section of the MRP. Monitoring reports must be accompanied by a completed Monitoring Report Transmittal Sheet (blank copy enclosed). The first quarterly monitoring report required under this Order is due on **1 August 2018** and is to cover the second quarter of 2018. The Annual Monitoring Report is due on **1 February 2019**, and is to cover the 2018 calendar year.

Report Submittals

All monitoring and technical reports should be converted to searchable Portable Document Format (PDF) and submitted electronically. Documents that are less than 50 MB should be emailed to: centralvalleysacramento@waterboards.ca.gov.

To ensure that your submittal is routed to the appropriate staff person, the following information should be included in the body of the email or any documentation submitted to the mailing address for this office:

Facility Name: City of Newman, Wastewater Treatment Facility		
Program: Non-15 Compliance	Order: R5-2018-0024	CIWQS Place ID: 244250

Documents that are 50 MB or larger should be transferred to a CD, DVD, or flash drive and mailed to:

Central Valley Regional Water Quality Control Board
ECM Mailroom
11020 Sun Center Drive, Suite 200
Rancho Cordova, CA 95670

To conserve paper and reduce mailing costs, a paper copy of the Order has been sent only to the Discharger. Interested parties are advised that the full text of this Order is available at: http://www.waterboards.ca.gov/centralvalley/board_decisions/adopted_orders/. Anyone without access to the Internet who needs a paper copy of the Order can obtain one by contacting Central Valley Water Board staff.

Now that the permit has been adopted, the Board's Compliance and Enforcement section will take over management of your case. Guy Childs is your point of contact for any questions about the Order. If you find it necessary to make a change to your permitted operations, Guy will direct you

to the appropriate Permitting staff. You may contact Guy at (916) 464-4648 or at Guy.Childs@waterboards.ca.gov.
