NOTICE OF APPLICABILITY, WATER QUALITY ORDER 2014-0153-DWQ-R5220, BECKWOURTH COUNTY SERVICES AREA, PLUMAS COUNTY

Beckwourth County Services Area (Beckwourth CSA) wastewater treatment and disposal system (Facility) is currently regulated under individual Waste Discharge Requirements (WDRs) Order 96-135. The WDRs were adopted on 3 May 1996. Beckwourth CSA hereafter referred to as the Discharger.

Based on the findings of the original WDRs, recent self-monitoring reports and discussions with the Facility's operator during a site inspection on 20 October 2016 the facility treats and disposes of less than 100,000 gallons of wastewater per day, and is therefore eligible for coverage under the general and specific conditions of State Water Resources Control Board (State Water Board) Water Quality Order 2014-0153-DWQ *General Waste Discharge Requirements for Small Domestic Wastewater Treatment Systems* (General Order). This letter serves as formal notice that the General Order is applicable to your facility and the wastewater discharge described below. You are hereby assigned General Order 2014-0153-DWQ-R5220 for your facility.

A copy of the General Order was provided to the discharger during the 20 October 2016 site inspection. You can also find the General Order on the State Water Board's website at:

http://www.waterboards.ca.gov/board_decisions/adopted_orders/water_quality/2014/wqo2014_0153_dwq.pdf

You should familiarize yourself with the entire General Order and its attachments that you were provided, which prescribes mandatory discharge and monitoring requirements. Sampling, monitoring, and reporting requirements that are applicable to your treatment and disposal methods must be completed in accordance with the sections of the General Order and the attached Monitoring and Reporting Program (MRP). This MRP was developed after consideration of your treatment system infrastructure and site conditions described in the attached Technical Memorandum.

REGULATORY BACKGROUND

The Discharger's wastewater treatment and disposal system is currently regulated under the individual WDR 96-135. The WDR was adopted on 3 May 1996 and is due for an update.

KARL E. LONGLEY ScD, P.E., CHAIR | PAMELA C. CREEDON P.E., BCEE, EXECUTIVE OFFICER

364 Knollcrest Drive, Suite 205, Redding, CA 96002 | www.waterboards.ca.gov/centralvalley

FACILITY AND DESCRIPTION

Beckwourth CSA provides sewer service to 52 residential connections, 7 commercial connections and 6 industrial connections, including the U.S. Forest Service (USFS) Fire Center, and Care Flight crew quarters.

Beckwourth CSA is in Section 26, T23N, R14E, MDB&M with surface water drainage to Middle Fork Feather River, as shown on Attachment A. Beckwourth CSA was established in 1967 as the entity responsible for the operation and maintenance of the Beckwourth wastewater treatment ponds. The community system consists of gravity flow lines, a central septic tank, and four wastewater disposal ponds. Beckwourth CSA operates primarily out of two ponds and uses the other two ponds as backup. Each pond has the capacity to hold 1 acre-foot of effluent.

As an existing facility, the site is categorically exempt from the California Environmental Quality Act (CEQA) pursuant to California Code of Regulations, title 14, section 15301 which applies to ongoing or existing projects.

FACILITY SPECIFIC REQUIREMENTS

The Discharger will maintain exclusive control over the discharge, and shall comply with the terms and conditions of this NOA and the General Order 2014-0153-DWQ-R5220, with all attachments.

Additionally the General Order states in Section B.1.L that the discharger shall comply with the setbacks as described in Table 3. This table summarizes different setback requirements for wastewater system equipment, activities, land application areas, and storage and/or treatment ponds from sensitive receptors and property lines where applicable. The Discharger shall comply with the following applicable setback requirements as summarized in the following table.

Site Specific Applicable Setback Requirements					
Equipment or Activity	Domestic Well	Flowing Stream	Ephemeral Stream Drainage	Property Line	Lake or Reservoir
Wastewater Storage and/or Treatment Ponds					
Impoundment (undisinfected secondary recycled water)	150 feet ¹	NA	150 ft.	50 feet	NA

¹ Setback established by California Code of Regulations, title 22, Section 60310(d).

Failure to comply with the requirements in the documents could result in an enforcement action as authorized by provisions of the California Water Code. Discharge of wastes other than those described in this NOA is prohibited. If the method of waste disposal changes from that described in this NOA, you must submit a new Report of Waste Discharge describing the new operation.

The required annual fee specified in the annual billing from the State Water Board shall be paid until this NOA is officially terminated. You must notify this office in writing if the discharge

regulated by the General Order ceases, so that we may terminate coverage and avoid unnecessary billing.

The Central Valley Water Board has gone to a Paperless Office System. All regulatory documents, MRPs, submissions, materials, data, monitoring reports, and correspondence should be converted to a searchable Portable Document Format (PDF) and submitted electronically. Documents that are less than 50MB should be emailed to:

centralvalleyredding@waterboards.ca.gov

Documents that are 50MB or larger should be transferred to a disk and mailed to the appropriate regional water board office, in this case 364 Knollcrest Drive, Suite 205, Redding, CA 96002. To ensure that your submittals are routed to the appropriate staff, the following information block should be included in any email used to transmit documents to this office:

Program: Non-15

WDID: 5A320104003

Facility Name: Beckwouth CSD

Order: 2014-0153-DWQ-R5220

Please note that WDRs Order No. 96-135 is proposed to be rescinded at the 23/24 February 2017 meeting of the Central Valley Water Board. Upon rescission of your individual WDRs, coverage for your facility under the General Order shall go into effect subject to this Notice of Applicability.

If you have any questions regarding submitting an updated report of waste discharge, making changes to your permitted operations, compliance or enforcement please contact Ron S. Falkowski at (530) 224-3227, ron.falkowski@waterboards.ca.gov, or the footer address.
