

Central Valley Regional Water Quality Control Board

7 July 2016

Mr. Hazem Gabr
Southern California Edison Company
2244 Walnut Grove Avenue
Rosemead, California 91770

**NOTICE OF APPLICABILITY (NOA), STATE WATER RESOURCES CONTROL BOARD
ORDER WQ 2014-0153-DWQ-R5187, GENERAL WASTE DISCHARGE
REQUIREMENTS FOR SMALL DOMESTIC WASTEWATER TREATMENT SYSTEMS,
SOUTHERN CALIFORNIA EDISON COMPANY, BIG CREEK POWERHOUSE NO.1,
FRESNO COUNTY**

The Southern California Edison Company (hereafter “SCE or Discharger”), owns and operates the existing Big Creek Powerhouse No. 1 Domestic Wastewater Treatment Facility (WWTF) that is regulated by Waste Discharge Requirements (WDRs) Order R5-2012-0048 (NPDES Order CA0079545). The WDRs allows the discharge of tertiary treated wastewater into Big Creek, a Water of the United States. On 31 March 2015, SCE submitted a Report of Waste Discharge (RWD) for an upgraded wastewater treatment system at its Powerhouse No. 1 in Big Creek that does not discharge to Big Creek, but to land surrounding the Big Creek Powerhouse No. 1 WWTF. Based on the information provided, the system treats and disposes of less than 100,000 gallons of wastewater per day, and is therefore eligible for coverage under the general and specific conditions of State Water Resources Control Board (State Water Board) Water Quality Order 2014-0153-DWQ *General Waste Discharge Requirements for Small Domestic Wastewater Treatment Systems* (General Order).

On 6 July 2015, Central Valley Regional Water Quality Control Board (hereafter “Central Valley Water Board”) issued a Notice of Applicability (NOA) under Order WQ 2014-0153-DWQ-R5187 for the use of the upgraded WWTF. The proposed discharge included subsurface disposal using leachfields and landscape irrigation using spray fields and green strip irrigation. However, when the NOA was issued in July 2015, SCE had not prepared and submitted a Title 22 to the State Water Resources Control Boards Division of Drinking Water (DDW) for review and approval of the proposed landscape irrigation, so the use of the spray fields could not occur until the Title 22 Report had been approved by the DDW, and by the Central Valley Water Board Executive Officer.

DDW staff prepared a 14 April 2016 letter approving the Title 22 Report and the use of treated wastewater for landscape irrigation. On 22 June 2016, Central Valley Water Board staff inspected the WWTF and the disposal areas. The WWTF was observed to be in

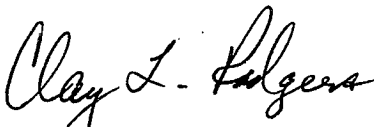

7 July 2016

good condition and the landscape irrigation areas were posted with signs indicating the use of recycled water.

This letter serves as formal notice that the General Order is applicable to your system. You should familiarize yourself with the entire General Order and its attachments, which describe mandatory discharge and monitoring requirements. Sampling, monitoring, and reporting requirements applicable to your treatment and disposal methods must be completed in accordance with the appropriate treatment system sections of the General Order and Monitoring and Reporting Program (MRP) No. 2014-0153-DWQ-R5187. The MRP was developed after consideration of your waste characterization and site conditions and was included in the 6 July 2015 NOA.

The Regional Water Quality Control Board, Central Valley Region (Central Valley Water Board) has gone to a Paperless Office System. All regulatory documents, submissions, materials, data, monitoring reports, and correspondence should be converted to a searchable Portable Document Format (PDF) and submitted electronically. Documents that are less than 50MB should be emailed to: centralvalleyfresno@waterboards.ca.gov. Documents that are 50MB or larger should be transferred to a disk and mailed to the Central Valley Water Board office at 1685 E Street, Fresno, CA 93706. To ensure that your submittals are routed to the appropriate staff, the following information block should be included in any email used to transmit documents to this office: Program: Non-15, WDID: 5C10102009001, Facility Name: Southern California Edison Company, Big Creek Powerhouse No. 1 WWTF, Order-2014-0153-DWQ-R5187.

If you have any questions regarding this matter, please contact Jeff Pyle by phone at (559) 445-5145, by email at jpyle@waterboards.ca.gov.

for Pamela C. Creedon
Executive Officer
