**NOTICE OF ADOPTION
WASTE DISCHARGE REQUIREMENTS ORDER R5-2023-0016
(NPDES PERMIT CA0078051)
FOR
CITY OF MT. SHASTA AND U.S. DEPARTMENT OF AGRICULTURE, FOREST
SERVICE
CITY OF MT. SHASTA WASTEWATER TREATMENT PLANT
SISKIYOU COUNTY**

Enclosed is Waste Discharge Requirements Order R5-2023-0016 (NPDES Permit) for the City of Mt. Shasta and U.S. Department of Agriculture, Forest Service, adopted by the California Regional Water Quality Control Board, Central Valley Region, on 27 April 2023. The NPDES Permit becomes effective on 1 June 2023.

Until the enclosed NPDES Permit becomes effective you will need to comply with the effluent limitations and requirements contained in your previous NPDES permit, Order R5-2017-0117. For your April and May 2023 self-monitoring reports, you will need to demonstrate compliance with previous Order R5-2017-0117 through 31 May 2023, and compliance with new Order R5-2023-0016 beginning 1 June 2023.

The Central Valley Water Board is implementing a Paperless Office system to reduce our paper use, increase efficiency, and provide a more effective way for our staff, the public, and interested parties to view documents in electronic form. Therefore, the City of Mt. Shasta is required to submit all self-monitoring, technical, and progress reports required by the Orders via California Integrated Water Quality System (CIWQS) submittal. In general, if any monitoring data for a monitoring location can be submitted using a computable document format (CDF) file upload, then it should be submitted as a CDF file upload, such as characterization monitoring data. However, certain parameters that cannot be uploaded to the CIWQS data tables, such as Annual Operations Reports, should be uploaded as a Portable Document Format (PDF), Microsoft Word, or Microsoft Excel file attachment. Also, please upload a cover letter summarizing the content of the report to the submittal tab of the CIWQS module for each submittal.

MARK BRADFORD, CHAIR | PATRICK PULUPA, ESQ., EXECUTIVE OFFICER

All other documents not required to be submitted via CIWQS shall be converted to a searchable PDF and submitted to centralvalleyredding@waterboards.ca.gov. Please include the following information in the body of the email:

- Attention: NPDES Compliance and Enforcement
- Facility: City of Mt. Shasta Wastewater Treatment Plant
- CIWQS Place ID: 241800

Documents that are 50 MB or larger must be transferred to a CD, DVD, or flash drive and mailed to our office, attention "ECM Mailroom".

Please note that a new table has been added to your permit at the end of the Monitoring and Reporting Program (Attachment E), Table E-14, entitled "Technical Reports." This table includes all technical and progress reports required by your permit in one location, along with due dates and CIWQS report names. The items in this table have a corresponding placeholder in CIWQS identified by the CIWQS report name for you to upload each report by the due date.

Additionally, please note the new requirement in Attachment E, Section X.B.6.c, to attach all final laboratory reports from all contracted commercial laboratories with your Self-Monitoring Reports (SMRs).

If you have any questions regarding the enclosed Order, please contact Mike Nilsen of my staff at (530) 224-4853 or Michael.Nilsen@waterboards.ca.gov.

Stacy S. Gotham, P.E.
