
Los Angeles Regional Water Quality Control Board

July 6, 2021

Mr. William J. Winter, Assistant Deputy Director
Los Angeles County Department of Public Works
900 South Fremont Avenue
Alhambra, CA 91803

Dear Mr. Winter:

**TYPOGRAPHICAL CORRECTION FOR WASTE DISCHARGE REQUIREMENTS
AND NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM PERMIT FOR
LOS ANGELES COUNTY DEPARTMENT OF PUBLIC WORKS – MALIBU MESA
WATER RECLAMATION PLANT (MALIBU MESA WRP), (NPDES NUMBER
CA0059099, CI NUMBER 6599)**

On April 28, 2021, the Los Angeles Regional Water Quality Control Board (Los Angeles Water Board) staff transmitted Order Number R4-2021-0062, which was adopted on April 8, 2021 and serves as Waste Discharge Requirements and a National Pollutant Discharge Elimination System permit for the Los Angeles County Department of Public Works' Malibu Mesa Water Reclamation Plant (Malibu Mesa WRP). Order Number R4-2021-0062 regulates the discharge of the Malibu Mesa WRP's tertiary-treated municipal wastewater to the Marie Canyon Creek via Discharge Point 001 and an unnamed canyon west of Marie Canyon Creek via Discharge Point 002.

Table E-6 of the Monitoring Reporting Program (MRP) in Order Number R4-2021-0062 specifies the self-monitoring report due dates for sampling frequencies of continuous, daily, weekly, quarterly, and annually. The submittal due date for continuous, daily, and weekly self-monitoring reports (SMR) in Table E-6 is expressed as "submit with monthly SMR". Since Order Number R4-2021-0062 does not require any monthly monitoring, the Los Angeles Water Board has determined that this was a typographical error. Therefore, the Los Angeles Water Board has modified Order Number R4-2021-0062 to correct this minor typographical error pursuant to 40 CFR section 122.63:

Table 6 of the MRP shall read as follows:

Table E-6. Monitoring Periods and Reporting Schedule

Sampling Frequency	Monitoring Period Begins On	Monitoring Period	SMR Due Date
Continuous	Permit effective date	All	Submit with monthly <u>quarterly</u> SMR
1/Discharge event (daily)	First discharge event after the effective date of this Order	(Midnight through 11:59 PM) or any 24-hour period that reasonably represents a calendar day for purposes of sampling	Submit with monthly <u>quarterly</u> SMR
1/Discharge event (weekly)	First discharge event after the effective date of this Order	Sunday through Saturday	Submit with monthly <u>quarterly</u> SMR
1/Discharge event (quarterly)	First discharge event after the effective date of this Order	January 1 through March 31 April 1 through June 30 July 1 through September 30 October 1 through December 31	May 1 <u>June 15</u> August 1 September 15 November 1 December 15 February 1 <u>March 15</u>
1/Discharge event (annually)	First discharge event after the effective date of this Order	January 1 through December 31	April 15
1/Year (annually for volumetric reporting)	Order effective date	January 1 through December 31	April 30

Due to the insufficient time to prepare and submit the quarterly SMR, the due dates for quarterly SMRs are also modified. Sections 3.10.2 of the WDRs and sections 1.1, 5.9.4, 8, and 9.1.4 of the MRP, Attachment E, require submitting a report for changes/updates as needed with the monthly SMR. The monthly monitoring report/monthly SMR of these sections will be replaced with “quarterly SMR” and shall follow quarterly SMR due dates.

If you have any question regarding this proposed action, please contact Dr. Don Tsai at don.tsai@waterboards.ca.gov or Jeong-Hee Lim at jeong-hee.lim@waterboards.ca.gov.

Sincerely,

Renee Purdy
Executive Officer
